

ACKNOWLEDGEMENT

It has been a privilege for me to have had the guidance of distinguished teachers Dr. Parag Diwan, Vice Chancellor, UPES and Dr. U.R. Prasad, Assistant Chief, CERC Govt. of India. I express my sincere gratitude for their kind benevolence, affectionate supervision and keen interest taken during my research.

I am beholden to Dr. S.J. Chopra, Chancellor and Ms. Deepa Verma, VP (AA), UPES, for their sustained encouragement and guidance for my PhD thesis.

My acknowledgement will be incomplete if I did not place on record my thanks to Dr. S.P.S Narang, Centre Head, NCR and Dr. Vikas Prakash, Head, Centre for Continuity Education UPES, for their invaluable assistance bestowed right from the time of inception till the completion of this study.

I also thank Mr. S.K. Chatterjee, Deputy Chief (Regulatory Affairs), CERC and all my colleagues for their guidance and support.

My sincere thanks to my parents, especially my mother, without their support my thesis would not have been possible. Mere thanks cannot acknowledge the support of my husband Dr. V. S. Mishra, and my twin daughters who stood by me during the entire duration.

It goes without saying that a research of this nature would have been impossible without interaction and support from executives, analysts, experts and advisors working in Energy Sector. Their support is been gratefully acknowledged.

January, 2009
